

HEINE QUALITY
MADE IN GERMANY

HEINE EN 200 Diagnostic Centre
Always there. Always near. Always on hand.

HEINE EN 200 DIAGNOSTIC CENTRE

All important diagnostic instruments located at your fingertips and ready to use in a space-saving design.

Instruments turn on and off automatically.

When they are removed and replaced. And after 15 minutes of non-usage when taken off, the instruments are also switched off. When the instrument is taken off, the most recently selected brightness level is enabled. **This saves time and power.**

Soft Start Technology protects bulbs in the critical switch-on phase (prevents current surge) and prolongs bulb life.

Patented, unique, stepless dimming

from 3% to 100% with practical one-finger operation.

Theft protection thanks to the integrated locking screws.

Optimal hygienic reprocessing.

Flat, space-saving housing without any openings (no mechanical switch).

Highest safety standards:

The power supply and the EN 200 have several built-in protections against electronic malfunctions.

Excellent energy efficiency, with power consumption almost 60% lower than previous model.

The EN200-1.

As an add-on or if only a single instrument is used.

Connectivity Ready.

The device has a USB interface to connect modules such as the EN200-1.

Large operating radius

thanks to spiral cord with a length of up to 3.50m.

The EN200 Diagnostic Centre meets the standard IEC 60601-1: medical electrical equipment – part 1.

There's LED. And there's LED^{HO}. HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible. **That's what we call LED in HEINE Quality – or LED^{HO}.**

CLINIC OR PRACTICE:

Customise and combine with numerous HEINE instruments such as:

BETA F.O. OTOSCOPES

- ∴ **Excellent durability** thanks to solid, all-metal construction.
- ∴ **Exclusive 4.2x or 3x magnification.** More detail and easy recognition of foreign bodies.
- ∴ **XHL or LED^{HQ} illumination.**

BETA OPHTHALMOSCOPES

- ∴ **Maintenance-free** thanks to dust-proof housing.
- ∴ **Patented brightness control** for optimal customisation to suit any examination environment and improved patient comfort.
- ∴ Exclusive Aspherical Optical System ensures **non-reflective fundus images.**
- ∴ **XHL or LED^{HQ} illumination.**

DELTA 20 T DERMATOSCOPE

- ∴ **Toggle function** for switching between polarised and non-polarised illumination mode.
- ∴ **Glare-free and reflection-free view** thanks to polarisation, even without immersion fluid.
- ∴ **Digital documentation:** the DELTA 20 T can be easily connected to reflex cameras.
- ∴ **LED^{HQ} illumination.**

TONGUE-BLADE HOLDER

- ∴ **For standard wooden blades or with blade ejector for HEINE disposable tongue blades.**
- ∴ **Concentrated illumination of oral cavity and pharynx.**
- ∴ **Anti-glare view for examiners** thanks to light screw-on cap.
- ∴ **XHL illumination.**

GAMMA XXL LF

Analogue Sphygmomanometer – the perfect substitute for mercury devices that are harmful to the environment.

Cuff Basket

for storing blood pressure cuffs.

AllSpec Tip dispenser

The right size, visible and instantly available.

Wallboard

Made from satined acrylic glass for simple wall mounting.

Can also be equipped with thermometers from other manufacturers if required.

EN 200 Wall Transformer (Basic Unit with two handles) without instrument heads [01]	X-095.12.250
EN 200-1 Wall Transformer (Extension Unit with one handle) for use with the EN 200 Wall Transformer (with short USB cord), without instrument head [02]	X-095.12.251
EN 200-1 Wall Transformer (Single Unit with one handle) as single module with long USB cord and E4-USB plug-in power supply, without instrument head [02]	X-095.12.252

EN 200 Diagnostic Centre Sets	
with EN200 Wall Transformer, GAMMA XXL LF-WB Analogue Sphygmomanometer, Cuff Basket, BETA 400 LED F.O. Otoscope, BETA 200 LED Ophthalmoscope, AllSpec Tip Dispenser and Wallboard (mounting material included) [03]	A-095.12.950
See above, but with BETA 200 LED F.O. Otoscope	A-095.12.951

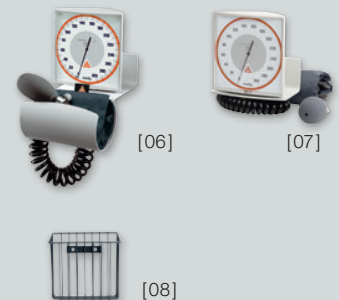

EN 200 Diagnostic Centre Kits	
with EN200 Wall Transformer, BETA 400 LED F.O. Otoscope and BETA 200 LED Ophthalmoscope (without additional accessories) [04]	A-095.12.218
with EN200 Wall Transformer, K 180 F.O. Otoscope and K 180 Ophthalmoscope (without additional accessories)	A-095.12.220

AllSpec Tip Dispenser for AllSpec Disposable Tips [05]	B-000.11.149
GAMMA XXL LF-W Analogue Sphygmomanometer [06]	M-000.09.323
GAMMA XXL LF-WB Analogue Sphygmomanometer (without cuff-holder) [07]	M-000.09.327
Cuff Basket for storing blood pressure cuffs [08]	M-000.09.140

Wallboard for simple wall mounting made of satined acrylic glass 50x75x0.8 cm, 3.8 kg, with pre-drilled holes, mounting material included	
for device combination EN 200 / Tip Dispenser	X-095.12.006
for device combination GAMMA XXL LF-W / EN 200 / Tip Dispenser	X-095.12.007
for device combination GAMMA XXL LF-WB / Cuff Basket / EN 200 / Tip Dispenser [09]	X-095.12.008
