HEINE SIGMA® 250 Binocular Indirect Ophthalmoscope
Accurate diagnosis made easy.

Now with a new power supply: HEINE mPack mini
70% smaller and lighter
HEINE SIGMA® 250 BINOCULAR INDIRECT OPHTHALMOSCOPE
Spectacle-mounted lightweight with a multitude of benefits.

NEW! HEINE mPack mini – The compact and light power source for SIGMA250.
The new, high performance power source HEINE mPack mini offers freedom from cables that tie the users to desk, wall or static power sources. With a weight of just 95 g and dimensions of 44 x 23 x 101 mm, this mobile power source is now approximately approx. 70 % smaller and lighter than its predecessor.

The pouch, which is included in the delivery, can be attached to the belt. The mPack mini can also be charged whilst in the pouch. Thanks to the Li-ion battery technology, the power source has an operating time of typ. 11 hours in continuous operation at maximum power. The mPack mini is flexible in charging due to its USB connector. Charge it via laptop, desktop or USB charger.
